

# Greater Kansas City & Topeka Psychoanalytic Center

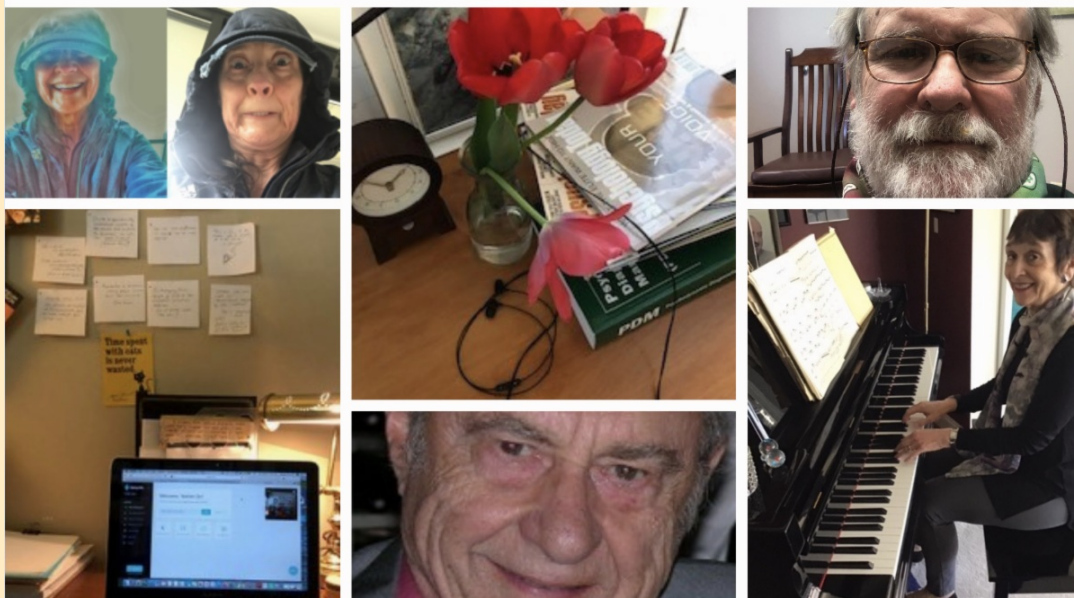

---

Hello, friends! We've  
missed seeing you!

"Be extra kind to yourself. This is a hard time for everyone. Humans across the world are sharing this experience with you.

We are all in this together and we may all emerge with a renewed appreciation for our interconnectedness. Helping others in need is both critical to get through this well, and also creates more purpose to our days and well-being."
